Price: \$700

Course Benefits

In these hands-on courses, you will gain an overview of how to use the powerful tools that come out-of-the-box with MapInfo. You will create maps and generate spatial queries that will help you and your organization to see the world from a whole new perspective.

Who should attend?

These courses are valuable for GIS professionals, analysts, target marketers, scientists, graphic artists, and technicians.

Call us about our "MapInfo for Analysts" and "MapInfo for Data Builders" courses.
